KEY SKILLS

- ✓ Python and C++programming
- ✓ Network architecture
- ✓ Back-end frameworks
- ✓ Web and mobile development
- ✓ Data Analysis
- ✓ Order fulfillment
- ✓ Application development
- ✓ HTML/CSS coding
- ✓ Database Management
- ✓ User interface design
- ✓ Network programming
- ✓ Data structures and algorithm

ACTIVITIES

Capstone Project – Blood Bank Management System

- Led the development of a full-stack Blood Bank Management System as part of our final project, aiming to improve donor registration, blood inventory tracking, and donation request handling.
- Collaborated in a team of four, using technologies like React.js, Node.js, MongoDB, and Firebase for real-time authentication and notification features.
- Integrated a donor eligibility quiz, interactive inventory map (Leaflet.js), and automated email notifications to streamline operations.
- Practiced Agile methodology, participated in sprint planning, and used tools like ZenHub for task tracking and GitHub for version control.

EDUCATION

Computer Programming Sep 2023 — May 2025
Algonquin College Mississauga, Canada
